vor 1958 Klassenstreifen entfernen
Neuankündigung für 2013, z. Zt. auf Eis gelegt; ggf. kann auch ein stahlblauer Trix DB-Wagen eingesetzt werden, da Umlackierung auf grün verzögert erfolgte

Ab 1961-1967 können für die X-Wagen der Verwendungsgruppe -53, B4üm→B4üm→Büm die Angebote der Modellbahnhersteller Roco, Rivarossi, Ade, Hobbytrain und neuerdings auch Piko eingestellt werden; ebenso für AB4üm→AB4üm→ABüm. Da ab Anfang 1961 die DB von Ral 6007 Flaschengrün auf Ral 6020 Chromoxidgrün umstellte und neben der bereits vorhandenen 1. Lieferserie der Bauart 54(-59) auch die 2. modifizierte Lieferserie Bauart 61 zur Verfügung stand, sind in diesem Zeitraum alle Varianten möglich. Die Modellauswahl kann hier nach persönlichem Geschmack und Geldbeutel erfolgen, wobei anfangs flaschengrüne 54er Wagen vermutlich in der Realität die Mehrzahl bildeten.

Genauso verhält es sich mit den Silberlingen Bn und ABn, welche, eigentlich für den Nahverkehr konzipiert, anfangs noch in D- u. Eilzügen eingesetzt wurden.

1968 sollte man Wagen mit Computerbeschriftung einsetzen, welche ebenfalls von den bereits genannte Herstellern vorhanden sind.

Für die Jahre 1963 bis 1966 kann der obige Zug nicht komplett mit H0-Modellen nachgebildet werden, da ein BRbu4üm als Modell zumindest mir nicht bekannt ist. Bzgl. der zeitweise eingesetzten DR-Wagen fehlen mir eingehendere Informationen, weshalb H0-Modelle vorerst nicht benannt werden können.
